

SPICA

Corten table

The Spica table takes its name from the homonymous star which is among the brightest in the sky. The table top proposes the radiant movement of the light beams through the segments of natural larch wood arranged in a radial pattern. The dodecahedron in waxed corten, on the base and under the table, joins the segmented wooden table top creating a decisive and elegant chromatic contrast.

DETAILS

Brand	TrackDesign
Designer	Alessandra Savio
Typology	Table
Collection	Spica
Dimensions	ø table top 180cm - ø table base 80cm - H 75cm
Materials	Waxed corten - Larch wood
