

# MESETA

## Corten table

### DESCRIPTION

The Meseta Table is an artistic expression of material property. It is a study of how to create rigidity, and support from an otherwise flexible material by adapting its form with industrial processes. The MesetaTable supports the userby bringing functionality and adaptability to the space it occupies. A large surface is offered for the preparation of food items, and deep niches for storing items of particular interest. The Meseta Table is a fusion of Contemporary form a modern functionality and will express itself dominantly in any space.
