

HANAMI

Coffee table

Hanami ("watching the flowers") is the Japanese term giving the name to the collection of outdoor Corten furniture. The decorative theme characterizing furniture was inspired by the traditional oriental custom to enjoy the beauty of the spring cherry tree blossoming. The pattern, present on the structure surface, represents the flower petals offering harmonious plays of filled and empty spaces.

Together with the coffee table, the collection offers other furnishings items such as a sofa, armchair and totem.
