

# LUMINARA

## Corten wall lamp

### DESCRIPTION

The wall lamp is the result of the fusion of symbols and objects of the Apulian tradition. Luminara name comes from the Latin lumen, "thing that spreads light". It recalls the typical rosettes of the Apulian Romanesque cathedrals and the classic illuminations, a recognizable symbol of the colorful patronal festivals of southern Italy. The poplar wood frame, useful to fix the sixty-four LED lightings, is covered with a thin sheet of corten steel that creates an elegant contrast between the brown shades of the metal and the white, yellow or blue lights that alternate in the rosette. With the lights off, Luminara becomes an original wall decoration.

### DETAILS

<b>Designer</b>	Jasmine Neglia
<b>Typology</b>	Wall Lamp
<b>Collection</b>	LUMINARA
<b>Size</b>	Diameter 96.5cm - Width 3cm
<b>Material</b>	Waxed corten steel - poplar wood - colored led lamps *

\*LED light bulbs white, yellow and blue - 12v 0.25w - 230v power supply.
